

My Challenge Essay

Student: Navon | Assigned: May 25, 2026 | Due: June 03, 2026

REMEMBER

Essay structure: Introduction → Body 1 → Body 2 → Body 3 → Conclusion. Each paragraph needs: a topic sentence + 2–3 details + a closing sentence.

1 WHAT YOU ARE WRITING

You are going to write a 4-5 paragraph essay about a challenge you have faced and how you handled it. This could be something that happened at school, in sports, with friends, or at home. Use the steps below to plan it out before you write.

2 SEE HOW IT WORKS

[Topic sentence] One of the hardest challenges I ever faced was learning to shoot free throws when the pressure was on.

[Supporting detail 1] Every time I stepped to the line in a real game, my hands would shake and I would miss -- even though I made them every time in practice.

[Supporting detail 2] I started staying after practice every day for two weeks, shooting 50 free throws alone until it felt normal.

[Closing sentence] By the end of the season, I was hitting 8 out of 10 from the line, and I learned that pressure gets easier the more you practice in it.

NOTICE

Notice: The topic sentence tells you WHAT the paragraph is about. The details tell you WHAT HAPPENED. The closing sentence tells you WHAT YOU LEARNED. Every paragraph needs all three.
